TRIED TO SHOOT HIM.

A Doubly-Married Operator's Wife Seeks Revenge.

THE REVOLVER DID NOT EXPLODE.

The Wife and Husband Engage in a Desperate Struggle for the Weapon—The Man Now in Jail—Chicago Levee Amazons Have a Genuine Uprising—A Virginia Negro Murders His Mother and Sister—Disgraced Their Mother's Funeral.

CHICAGO, Oct. 22.—Not long since Thomas Markham, train dispatcher of the Northwestern road at Evanston, disappeared, and it was learned that he had two wives—one in Evanston and one at Jefferson park. He returned to Jefferson park several days ago, and Tuesday the Evanston wife, whose maiden name was Emma Krueger, discovered the fact. She went to Jefferson park immediately, and getting a policeman to accompany her went to Markham's house. Soon after she entered the house the officer, who had remained outside, heard screams coming from the residence, and running to the rescue found Markham and the woman engaged in a terrific struggle for the possession of a revolver which she held.

The Revolver Did Not Explode.

The woman fought desperately and time and again pulled the trigger of the weapon, the muzzle of which was pressed against Markham's breast. The revolver did not explode or Markham would have been a dead man. The officer succeeded in disarming Miss Krueger and locked her up at the Jefferson Park Police station. Justice Julien had the woman brought before him. She was released on $400 bail and signed her own bond without additional surety. Miss Krueger immediately took out a warrant for Markham's arrest and he found himself in the police station. His friends attempted to find bail for him, but he has not been released.

A DISGRACEFUL SCENE.

George Thomas Clubs His Brother at Their Mother's Funeral.

ROCHESTER, N. Y., Oct. 22.—Mrs. Delia Thomas, who for many years past has lived on a farm about one mile northeast of Penfield village, died, and on Monday afternoon the funeral services were held at her late residence. The dead woman was well-known in the neighborhood and the funeral was attended by a large assemblage of friends and relatives. Among the latter was Alpheus P. Thomas, one of the sons, who lived on a farm adjoining that of his mother, with whom the other son, George, resided. The strong dislike of the latter for his brother was so well known that in order to prevent any exhibition of feeling on his part the relatives requested one of the town constables to be present at the funeral. The constable, however, was unable to comply with the request. In order to prevent any trouble Alpheus, instead of entering the house during the funeral, stood outside until the service was over. When the officiating clergymen, Rev. Mr. Wilson, had announced the last words of the service,

Dealt His Brother a Blow on the Head.

Alpheus entered the house and walked up beside the casket. Seated in the room was his brother, George, and as Alpheus bent over the coffin, George arose, and, seizing a heavy cane, rushed up to the coffin, and unmindful of the solemnity of the occasion, severely struck his brother upon the head with the weapon several times, inflicting severe injuries. Several men who were in the room quickly sprang forward to end the disgraceful scene and pinioned the infuriated man. The bearers quietly bore the casket to the hearse and the funeral cortege proceeded to the village cemetery where the body was laid at rest. Many years ago Alpheus purchased a few acres of land of his mother, and George took exceptions to the fulfillment of the contract. Since that time he has shown a bitter feeling against his brother. So violent was this dislike that Alpheus never called at his mother's house. A warrent was issued for the arrest of George Thomas.

Uprising of Colored Amazons.

CHICAGO, Oct. 22.—There was a genuine uprising of the blacks on the levee Tuesday night, and Laura Johnson, 18 years old, received fatal injuries. Sallie White, 317 Clark street, became convinced that Laura was attempting to alienate the affections of her husband. She marshaled her forces and with fourteen colored amazons, all armed to the teeth, marched to the home of Annie Fishback, where the Johnson girl lives. Breaking in the front door, they rushed into the house, driving the inmates into the street. The Johnson girl barricaded herself in a front room, but without avail. The door was forced and Sallie White rushed in swearing to kill the girl, who jumped to the pavement from the window and received fatal internal injuries.

Murdered His Mother with a Hoe.

SPOTTSYLVANIA, Va., Oct. 22.—George Johnson, a negro desperado, quarreled with his mother and then murdered her with a hoe. He struck her five time over the head. The trouble was caused by the woman objecting to her son paying attention to a girl she did not want him to marry. Johnson's brutality has aroused the entire neighborhood, especially as this is his second murder, he having killed his sister about eighteen months ago and escaped justice because there was not sufficient evidence to convict him.

Husband and Wife Badly Stabbed.

DETROIT, Oct. 22.—A special to The News from Port Huron, Mich., says: Tuesday night a man named Pellett called at the house of James O'Hara, a wealthy farmer living near here, and asked for a drink of water, which was given, and while O'Hara's back was turned Pellett stabbed him several times. Mrs. O'Hara interfered and was also brutally pounded and stabbed. Mr. and Mrs. O'Hara, it is thought, will die. Pellett escaped, but officers are in pursuit. Robbery was the object of the assault.

Killed the Wrong Woman.

SAN ANTONIO, Tex., Oct. 22.—Mrs. August Meblin, the wife of a railroad laborer, was shot and killed by Isaac Weiss, who then ran off about ten yards and literally blew out his brains. It is supposed Weiss mistook Mrs. Meblin for his wife. A note found in his pocket indicated he intended to first kill his wife and then commit suicide. The Weiss family is from Detroit, Mich.

SAD SCENE AT A FUNERAL.

Mrs. Kate Chase-Sprague and Her One-Time Husband Mourn for Their Boy.

NARRAGANSETT PIER, R. I., Oct. 22.—The funeral of William Sprague, who suicided recently, took place at St. Peter's chapel here Tuesday noon according to the regular Episcopal form, the Rev. Wharton and wife, and Mrs. William Sprague, Jr., sat on one side of the church, while on the other side was the mother of the deceased, Mrs. Kate Chase-Sprague, her daughters Edith and Portia, Mrs. Byron Sprague, Mrs. Amasa Sprague and Mrs. Balch. On the completion of the services it was arranged that the interment should be made in Providence.

Touching Scene in Church.

Ex-Governor Sprague and family followed the casket up the aisle, and Mrs. Chase Sprague followed half way up the aisle. The latter was overcome with grief, and sank sobbing into a pew. A touching scene ensued. Mrs. Sprague kissed the old Canonchet servants, who surrounded her, and who also wept like children. The party embarked at 2 o'clock and reached Providence by cars at 3:15. The remains were interred at Swan Point.

Frightened to Death by Revenue Officers.

RALEIGH, N. C., Oct. 22.—Two revenue officers were in search of moonshiners in Johnston county Tuesday and surprised two while at work. Both fled and apparently took refuge in a house near by. To this house the deputies hastened and found there only a woman named Creech. She was in a delicate condition and was terribly frightened at the rude entry of the officers, one of whom, named Flowers, cursed her because she would not reveal the whereabouts of the men. In the midst of Flowers' abuse Mrs. Creech fell to the floor and expired instantly. Flowers became frightened and fled. The people are terribly aroused over the affair, and are out in search of Flowers, who will be lynched if found.

A Wild Ride Down Grade.

CHEYENNE, Wyo., Oct. 22.—A. B. Newstead, a Burlington switchman at the yards here, had a thrilling experience Tuesday. He was on a box car which was "kicked" violently out on the main line in the course of some switching. The brake was broken and in a moment Newstead realized that he was in for a wild ride down grade to Grover, Colo., a distance of forty miles. He figured on all the chances and concluded to keep his seat on the hurricane deck. There were no trains on the road and cattle kept off the track. The car ran three miles beyond Grover in exactly forty minutes. Newcastle thought a dozen times that it would jump the track, but the rickety old concern stuck to the rails.

The Safest Way to Travel.

WASHINGTON CITY, Oct. 22.—Gen. Dumont, the chief supervising inspector of steam vessels, has sent his annual report to the secretary of the treasury. In it he says that 4,500,000,000 passengers were carried on steam vessels in this country during the fiscal year, and on this subject says: "I unhesitatingly reiterate what was said in my report of 1889, namely, that no mode of travel at the present day, whether by railway, horse car, carriage, or even the common farm wagon, presents so low a percentage of accidents as travel by steam vessel."

The Parson a Free-Lover.

HOLLAND, Mich., Oct. 22.—The Rev. John Koster, pastor of a non-sectarian church here, is now in jail at Grand Rapids, charged with alienating the affections of Mrs. John Lint from her husband. Mrs. Lint is a member of Koster's church, and the arrest has caused a big sensation. Lint wants $5,000 damages, and his capias is the cause of Koster's incarceration. It is charged that Koster is a free-lover. He was immensely popular with the ladies of his church, and they defend him, while the men are bitter against the parson.

COLLISION IN A TUNNEL

Terrible Wreck on the Queen and Crescent Route.

FIVE MEN KILLED AND OTHERS HURT.

Horrible Accident on the Union Pacific Railroad in Missouri—Many Injured, the Engineer Probably Fatally—In a Wreck Near Birmingham, Ala., Two Persons Meet Death and Twenty Are Injured.

CINCINNATI, Oct. 22.—At 2 o'clock Wednesday morning the south-bound passenger train No. 9 on the Cincinnati Southern railroad ran into a freight train in a tunnel a few miles south of Somerset, Ky. One fireman and a conductor were killed outright while several others were fatally injured. To add to the horror of the situation the front cars of the passenger train took fire and an express messenger and postal clerk were burned alive. Following is a list of the killed and injured furnished at the general office of the company in this city: Killed: Postal Clerks C. L. Doogen and J. G. Gayle, both of Cincinnati; Firemen Walsh and Gould, of Cincinnati; Brakeman J. E. Montgomery. Injured: Engineers Pinelott and Taylor, baggagemaster, name unknown; passenger, name unknown. All of the injured reside at Somerset and are being cared for by the railroad company. None of them are fatally hurt.

Cause of the Accident.

The accident was caused by the freight engineer moving without orders. It side-tracked at Sloan's Valley until one south-bound passenger passed and followed it, the engineer believing he could make the next side-track before meeting the other passenger train, which was only a short distance behind the first one. When about midway the tunnel there was a terrible crash, followed by the groans of the dying and injured. Both engines were totally demolished in addition to several coaches and freight cars. To add to the horror two of the coaches caught fire and Postal Clerks Gayle and Doegen were burned alive. The more fortunate passengers and crews turned their attention to rescuing those imprisoned in the wreck and who were being consumed by the flames. Those taken out were removed to neighboring houses, where they were attended by physicians sent out by the company. The loss to the railroad will be $25,000. A wrecking train has been sent out to clean away the debris, and there will be no delay to traffic.

ON THE UNION PACIFIC.

A Wreck in Which Many People Are Injured.

KANSAS CITY, Mo, Oct. 22.—A bad wreck occurred on the Union Pacific railroad, a short distance west of the suburban town of Armourdale, about 7:30 o'clock Wednesday morning. A freight train had left this city ahead of the Union Pacific passenger train, and was stopped west of Armourdale on account of an accident to the trucks of one of the freight cars. The Union Pacific passenger train which followed close behind was stopped, and a flagman was sent back to warn an expected Rock Island east-bound train which uses the Union Pacific track into the city. On account of the heavy fog the engineer of the Rock Island train did not see the flagman's signals until too late to stop the train and the locomotive crashed into the sleeping car Wathena, of the Union Pacific train. The engine was a complete wreck and the engineer was buried beneath the debris. The fireman jumped and saved his life. Several passengers and trainmen were seriously injured.

The Engineer Probably Fatally Injured.

The following is a list of the injured: Pat Cullen, engineer of the Rock Island train, probably fatally injured, Topeka, Kan.; John Cuff, fireman, severe injuries about head and shoulders; Edward Jackson, colored porter, both legs broken, Edwardsville, Kan.; J. H. Grayson, pullman conductor, left leg badly hurt; J. F. Kinney, severe bruises in back, Chicago; J. A. Lapschire, right knee badly cut, Lincoln, Neb.; John Driscoll, left leg broken below the knee, Osaqua, Kan.; C. J. Avery, special census agent, back hurt and bruised about the body, Springfield, Ill. A wrecking train was at once sent to the scene of the wreck, and the injured were brought to this city and taken to the Sisters' hospital. The track was cleared about noon. The damage to the company is estimated at $60,000.

Two Persons Killed and Twenty Seriously Injured.

BIRMINGHAM, Ala., Oct. 22.—Late Tuesday night a passenger train on the Kansas City, Memphis and Birmingham railroad pulled out of the depot here without a conductor or a flagman, the engineer misunderstanding a signal. Five miles out the engineer discovered his mistake, backing his train without lights or a man on the rear platform of the car, he ran into an outgoing freight train, killing two persons and seriously injuring twenty others. The dead are: J. D. Franklin, traveling passenger agent, Nashville, Tenn.: John Kittrain, fireman of the freight train. Those dangerously injured are: George W. Davis, Shellmound, Tenn.; Mrs. W. F. Wagner and two daughters, Greenville, S. C.; E. P. Rose, Lynn, Ala.; J. E. Owens, Westfield, N. C.; J. W. Fennell, New Orleans; Rev. H. G. Smith, Jasper, Ala. Others whose names could not be learned are supposed to be fatally hurt. Engineer Russell of the passenger train is held responsible for the accident.

Train Wrecked on a Trestle.

KANSAS CITY, Mo, Oct. 22.—A freight train on the Chicago, Milwaukee and St. Paul road was wrecked on a trestle forty feet high, between Excelsior Springs and Mosley, by unknown villians. The fireman, John Wright, of Cincinnati, was instantly killed. S. C. McKinley, a brakeman, had his ankle severely sprained. The rails had been loosened and the ends pried apart with a crowbar, which was fastened between the ends so as to prevent their slipping back together.

DISCOVERED A SILVER VEIN.

Situated on a Minnesota Island Near Fond du Lac.

SUPERIOR, Wis., Oct. 22.—The excitement over the finding of a vein of silver about two miles from Fond du Lac, Minn., has reached here, and quite a number of Superior people have become interested in the scheme to develop the mine. The land on which the vein was discovered is situated on an island, and is owned by J. B. Scoville. Messrs. Grinner and Turgeon, two citizens of Superior, have obtained from Mr. Scoville an option on the land for a sufficient length of time to enable them to have the find inspected, and if the inspection proves satisfactory a company will be incorporated for the purpose of shafting and developing the mine.

Pronounced Good Silver.

A party of Duluth and Superior speculators with a couple of experienced explorers will leave for the island to examine the locality and make further tests of the quality and quantity of the vein. The vicinity will be carefully prospected, and it is believed the discovery of more veins will result. The sample taken from the island by Mr. Scoville has been examined by experts and pronounced a good grade of silver.

Soon after they left Fred Roberts, who is a brother-in-law of the bride, got wind of the affair, and securing a hand car, reached Nelson, hired a carriage and was in waiting at the church door when the lovers appeared. He seized Miss Frady, bundled her into his carriage, took her to his house and locked her up. Sampson was asked regarding the numerous complaints which have been sent out relative to the alleged ill-treatment of Americans arrested in Paso del Norte, and said: "Arrests have been wildly exaggerated. If an American disobeys the law in Mexico he is arrested just the same as a Mexican would be in the United States. Mexican laws differ from those of our country. If an American cannot abide by their laws he should not remain there."

COLORED FOLKS OBJECT

Don't Like the Name Given to Their School.

A PROTEST TO THE SCHOOL BOARD.

St. Louis Colored People Don't Want Their School Named After Gen. Hancock—An Order Issued by the General, Prohibiting Negroes from Riding on Street Cars, Not Forgotten—Not a St. Louis School Named Lincoln.

ST. LOUIS, Oct. 22.—A vigorous and extremely spirited colored protest against the name selected for one of the colored public schools of St. Louis was made Tuesday and is stirring up a tempest in a teapot, amidst the turmoil of which the school board committee appointed to select appropriate names for those schools are beset with difficulty and surrounded by tribulations. The opposition of the colored element of the city is centered upon No. 6 school in Carondelet, which has been christened the Hancock school, in honor of the late Gen. Winfield Scott Hancock. This opposition is led by F. Dorsey, who said: "I have made a formal protest to the school board against the proposed naming of No. 6 school after Gen. Hancock."

Haven't Forgot the General's Order.

"The colored man has nothing to be thankful to Hancock for and had one great wrong to remember, which was inflicted by him. When Gen. Hancock was in command of the military department of Louisiana he issued an order prohibiting negroes from riding on the street cars. It was a gratuitous insult offered to the entire race, and one that never will be forgotten. Why should a colored school be named for a man who did not believe the colored people should be allowed even such a bare privilege as a seat in a street-car? If the naming of the colored schools of St. Louis is to be utilized as a means of perpetuating the memories of the great men who have helped the negro race, the selection of Gen. Hancock's name is the veriest farce, and appears as such to the colored people."

Not One School Named Lincoln.

"I also believe," he said, "that Gen. Hancock's family would seriously object to a negro school being named for the general. They would not appreciate the honor in the least. I was so certain of this that, knowing the Hancock family had many friends in St. Louis, I made a point of looking them up and asking their views upon the subject. A well-known St. Louis woman, who has been a friend of the Hancock family for years, told me that she would secure a lettter from Mrs. Hancock protesting in the strongest terms against a colored school having Gen. Hancock's name."

Strange to say, of the eleven names selected for colored schools in St. Louis, not one is Lincoln.

Excited Over a Faith Cure.

FORT DODGE, Iowa, Oct. 22.—The little town of Palon, south of here, is greatly excited over a marvelous faith cure wrought there. The patient, Nicholas Wills, had been a bed-ridden cripple for years, not being able to even walk with crutches. A lady from Des Moines called upon him, prayed with him and told the disease to leave him. She then ordered him to get up and walk. He protested that he could not, but she said he could, and the third time she told him he got up and walked to the field where his brothers were at work. He says that he is cured and that the pains which he suffered for four years have entirely left him. The truth of the foregoing is vouched for by many reputable citizens of Palon.

The cave was partially explored, the hunters traversing a distance of a half-mile or more. Vaulted rooms, lined from top to bottom with stalactites and other beautiful geological formations, a lake of solid ice, a beautiful rivulet of crystal water, a room with sides and roof covered with glistening cubes of mineral, and unmistakable evidence of a former occupancy by a prehistoric race of this subterranean wonder were some of the sights which revealed themselves.

IT will no doubt please Mr. Maffit to learn that all the indications point to a severe winter and ice 20 inches through.

THE REP calls attention to the fact that Parisian robes are selling in Chicago at "greatly reduced prices." Well, who ever pretended that the republican party tried to protect the American sewing girl at the cost of the aristocrat who wants to wear a Parisian robe.

OH no, THE REVIEW has no corner on the floaters. In the first place, the candidates who have big money to spend are on the other side of the house. In the next place, you cant work up a corner on the floater variety of mankind two weeks before delivery day. The only way to corner the floater is to send him to jail.

WE are informed that young Mr. Cloyd, a son of J. G. Cloyd's, was one of the men to whose registration Shockley objected. This young man has elived next door to Shockley for nearly a dozen years, and he has voted twice when the great mogul acted as judge. Perhaps Shockley thinks it is possible for a democratic young man to lose his majority.

WHAT assurance is required that THE REVIEW will stand by a citizen's committee after it is organized to detect and punish vote sellers? When we once get such a committee it will be able to take care of itself. It will report to the grand jury, and not to the newspapers. Let The Rep join with THE REVIEW in asking for such a committee, and then let the committee be made of men who can stand by themselves. To break up bribery at elections, the support of any newspaper is not essential.

Cancer of the Nose.

In 1875 a sore appeared on my nose, and grew rapidly. As my father had cancer, and my husband died of it, I became alarmed, and consulted my physician. His treatment did no good, and the sore grew larger and worse in every way, until I had concluded that I was to die from its effects. I was persuaded to take S. S. S., and a few bottles cured me. This was after all the doctors and other medicines had failed. I have had no return of the cancer.

EXCURSIONS To the Republic of Honduras. Farmers, mechanics, manufacturers, sportsmen and invalids are especially invited to investigate the advantages offered for settlement in the Republic of Honduras, in Central America. Why not go where lands are cheap and terms are easy—where the climate is healthy and delightful, and all trades and industries will thrive and prosper—where a little money will secure a home, and taxes and duties will not consume it? No drought nor floods to injure crops, and cyclones and blizzards are unknown. This is the best country on earth for a poor man, or a man of moderate means, to make a fortune. No extreme heat nor severe cold, and good water in great abundance. For fishing and hunting it beats the world. All kinds of tropical fruits are easily grown, and sell for cash when ready for market. For tickets, rates, etc., and advertising matter, descriptive of Honduras, address, F. B. Bowes, general northern passenger agent, I. C. R. R. 194 Clark st. Chicago, Ill.

HERE WE ARE, CLEAR THE WAY.

WE ARE LOADED FOR BEAR.

DEAR FRIENDS:—We have been silent for several days, which brought a premature smile to the faces of our competitors. But they will know this morning that there was mischief brewing all the time. They will read over this list of prices and then go out and have a few disastrous rounds with the despair that will hug them closer and blacker than a shadow.

But friends their grief will be your joy. They will be sad unto jaundice because they know you will read of the bargains that are offered here--and that will be the end of their few-sales-and-big-profits jig.

Here is What WE Can do For You.

600 Pairs Ladies' Dongola Button shoes in Opera and Common Sense. Our former price has been $3.00; we are going to sell them at $2.00. Other dealers here cant buy them at what we are selling them for. If you dont get a pair you will regret it.

500 Pairs Ladies' Dongola Button shoe at $1.35; our price was $2,25 They will be sold at this great sale at the above price and they are dandies. Our competitors may howl at such a slaughter but we have the goods and are going to sell if prices will do it.

300 Men's Real Congress shoes all solid and are worth $2.00; considering the great advance in prices we are going to run them out at $1.35.

We have 150 Pairs Men's Calf Congress shoes hand welt and they are daisies and you cant approach them at near the price. We are going to sell at $2.50. Just think, of a Men' hand sewed shoe being sold at such a price.

If this does not satisfy you that we UNDERSELL any other house in the business, come to our store and see the thousand other startling evidences that rest upon the shelves. The tariff may affect small concerns, but it stands out of the way for such a business as we do. Tariff or no tariff, we break the record every day in the matter of getting up bargains for our patrons.

"Old Homestead" To-Night.

The plot of "The Old Homestead," which will be presented at the Grand to-night, is a simple story, and deals with one of the purest types of country farm life in New England, into which is thrust a wedge of "life in the city,"—a moving panorama of the two,—bringing back to all a memory of "old home." Many a parent can look back over their past life and remember just such scenes, and how many times these have been recalled for the benefit of their own children.

THE COMBINATION SALE.

Good Horses Sold at Fair Prices—The Full List.

Considerable interest was taken in the sale of 50 head of standard and high bred trotting horses, colts and fillies at the trotting park yesterday. The animals were from the stables of R. R. Montgomery, L. Burrows & Son and Dr. J. L. Connelly. The crowd included about 300 people, many of them horsemen from Springfield, Bloomington, Monticello and other towns around Decatur. Among the well known people of Decatur present were I. A. Buckingham, W. H. Linn, W. L. Ferguson, Walter Strange, John McCoy, W. W. Foster, Dr. Walston, Dr. Randall, Charles Laux, S. M. Lutz, and S. R. Gher. About 20 ladies were on the grounds in carriages.

The sale was on the whole satisfactory to the owners. When a fine standard bred filly was put up, it brought a good price. The other animals sold lower, but not far from their real value. The sale began about 2. J. H. Kirkpatrick, of Bloomington, was the auctioneer. He is an old hand at the business, and knows how to get all there is in the crowd. About 4, as a great many had gotten cold and gone away, the sale was stopped, with a few animals yet unsold.

Following is a complete list of the purchasers, the animals names and the prices paid. The numbers refer to the catalogue, where any one interested can find the full pedigree.

Stealing Railroad Iron.

The case against John Russell, for stealing railroad iron from the Wabash, was called up again yesterday at 1 o'clock, before Justice Curtis. He had a number of witnesses to prove that he bought the iron from Polacks, and consequently the justice discharged him.

Some of the Polacks were arrested then on the same charge. One little fellow of 9 years owned up to having helped to take it, but said that he did not know it was wrong. The iron had been left lying for some time by the railroad company and so he and the other little boys thought they would make a few cents and sold it. He was too young to receive any punishment and was let go. Mrs. Annie Semelki was tried on the same charge and was held to appear before the grand jury. She gave bond of $50 for her appearance. Several others of the Polack women are to be arrested on the same charge.

Stole the Pork.

Samuel Trotter, who lives two or three miles northeast of town, killed a nice fat porker Tuesday, and that evening sent half of it over to his brother, Milton Trotter, who lives a little distance from his house. The latter had the fresh meat hung up in his wood house, and retired for the night, maybe to dream sweet dreams of the delicious meal to be eaten in the morning when the first cut was made from the tender meat. Morning came and breakfast time, but there was no pork found. In the darkness some one had stolen the entire lot, and no trace of it could be found. It was evidently too much for one hog to endure to see half of another one of different species eaten and him to have no part in it.

To Ft. Wayne.

City Attorney McDonald and Alderman P. W. Delaney started to Ft. Wayne last night. They go to see if the company that was the Jenney Electric company is good, financially, and if it is going to fulfill its agreement to guarantee the city against loss on the double carbon lamps put in with the electric light plant. Alderman Park was appointed to go by the council, but he has so much business on hand now he can't get away. Alderman Delaney is on the light committee.

Deaths.

The funeral of Charley Benarski, the son of Mr. and Mrs. Godfrey Bernarski, who live on North Jordan street, was held yesterday afternoon, at 2 o'clock, from the home. The child was aged 2 years and 5 months.

The infant son of Mr. and Mrs. Charles Baker, who live on South Broadway, was buried yesterday, at 10 in the morning.

MARRIED AT ST. JOHNS.

Leverett M. Rude and Miss Lillie L. Eldridge Wedded Last Night.

St. John's Episcopalian church was comfortably filled last night with friends who were invited to be present at 8 o'clock to witness the marriage of Leverett H. Rude and Miss Lillie Lucile Eldridge, both well known in Decatur. At 15 minutes after 8 o'clock, Mrs. Ottie Alexander seated herself at the organ and played a few bars of music, and then to the strains of the "Wedding March" by F. Mendelssohn Bartholdi, the bridal party entered the front door and passed down the aisle of the church. Messrs. Charles Logan and James Stafford, acting as ushers, preceded the groom, who escorted Mrs. E. R Eldridge, the mother of the bride, and then came the bride, on the arm of her father. Rev. Montgomery M. Goodwin, who performed the ceremony, met them at the end of the aisle, and then commenced the service, which was the beautiful one of the Episcopal church. The bride was lovely in a dress of white satin trimmed with lace, and made with a train, and as the party passed down the aisle many whispers of "how sweet she looks" were heard. The groom was attired in full evening dress.

At the close of the ceremony the newly married couple were driven to the home of the groom's mother, Mrs. L. G. Kaufman, at 853 North Water street, where a reception was given them. From there later in the evening they went to their own home, 623 West Main street, which they have prepared and where they will be found at home to their friends.

Leverett H. Rude is well known here as a bright young man who has been successful in the merchant tailoring business. His new made wife is the daughter of Mr. and Mrs. E. R. Eldridge, who have lived in this city for several years, though Mr. Eldridge is now an attorney in Chicago. She is a most charming young lady and their many friends will wish them all manner of happiness.

Like the "T" Rail.

Springfield councilmen are struggling with the street car rail problem. At a meeting Tuesday night reports were made by Aldermen Gard, Hellweg and Hudson, who had been to Decatur to examine the "T" rail and the method of laying brick paving along the track. In Springfield the rails used will be lighter and smaller than in Decatur, where the rail is of the usual weight railroad iron. The following letter in answer to a question by a member of the Springfield council, was read:

DECATUR, Ill., Oct. 20, 1890—Dear Sir: Replying to your inquiry relative to the "T" rail as an obstruction to the street, would state that we have both flat and "T" rail in use, and we do not think you can find a property owner but what will acknowledge that the "T" rail is preferable, offering the least obstruction to traffic; for with our system of paving we are able to pave closer to the "T" rail than we possibly could to the flat rail, so that there is not near the danger to buggies that there is with the flat rail. Since we put down the flat rail, property owners who objected to our putting down the "T" rail now say they wish we had the "T" rail down instead of the flat rail, and this has been the experience in a good many cities we know of. We understand that Champaign, Bloomington and Lafayette are using the "T" rails in preference to the flat rails.

Trusting this information will be of use to you, we are, very truly,

The Corn Crop.

A careful estimate made by two farmers who have traveled over Macon county the lost two weeks, is that in this county at least the corn crop is going to be shorter than was expected. It is in fact a shor crop.

The Farmers' Review, of Chicago, will say this week, that a careful examination of the estimates furnished by correct correspondents reveals the fact that the corn crop is turning out somewhat better than was expected. The crop in Michigan and Wisconsin is larger than last year; in Minnesota and Dakota, almost as large. In other states, especially Kansas and Nebraska, the corn shows considerable shortage. In several counties of Kansas and Nebraska the corn is nearly a total failure. The Review gives estimates on the production of Illinois Indiana, Ohio, Kentucky, Missouri, Kansas, Wisconsin, Michigan, Iowa, Nebraska, Minnesota and Dakota, and says, after deducting from the gross product the large percentage of the unmerchantable corn the estimate of the total marketable in the states named is 825,935,253 bushels. The condition of the crop in the remaining states not covered by the report is estimated at about 85 per cent. of the average.

On His Wedding Morn.

This dispatch appeared in the papers yesterday morning:

PLATTE CITY, Mo., Oct. 21.—Joseph Anderson, a printer, aged 22, shot himself in his room in this city this morning, the bullet passing through his head. He was to have married Miss Bertha Cloud, of Decatur, Ill., this evening. They had been engaged for several months and he often expressed the highest affection for her to intimate friends. Miss Cloud, who was here ready for the ceremony, is prostrated with grief. No cause can be assigned for the rash act.

Anderson worked in Decatur four or five months, leaving about a year ago. He was employed at both THE REVIEW and The Republican offices. When he left here he went to Sprigngfield. Bertha Cloud is well known in Decatur, where she has many intimate acquaintances, both male and female, and especially male. Virtue is something she has had no personal knowledge of for a long time. She was in Decatur only a few days ago. People who know her here are of the opinion that she had no idea of a wedding when she left this city. They say further, that Anderson left here to get away from Bertha.

REVIEW POSTOFFICE.

TO THE DECATUR REVIEW:

GENTLEMEN—I would call your attention to an article in last nights' Rep. in which the statement that the largest glass works in the world located at Streator, Ill., has been developed since it was known that the McKinley bill would become a law. Now then, The Rep. has either no knowledge of glass works or it is like Rip Van Winkle—it has been asleep for the last 12 or 15 years. I will here state for the benefit of your readers and The Rep. that the Streator glass works have been in operation for the last 12 or 15 years, and that it is by no means the largest glass factory in the world—in fact it is only a small concern in comparison with some of the large glass factories in the east, and further, it is so to speak, a private concern, and controlled by English capitalists. Such talk as The Rep. brings out is preposterous on the face of it, and I would suggest that the next time The Rep. tries to spring anything on the voters of this city, that it gets pointers before writing about glass works, of which it knows nothing.

ROXEY.

Something Must Be Done.

The public improvement committee and Mayor Kanan met at the city attorney's office last night. The meeting was to discuss the way in which the sewer excavations have been filled. No definite conclusion was arrived at, but after looking over the contracts, it was the general opinion that they have not been complied with, and the streets must be put in better shape by the contractor. The mayor and the committee will meet again this morning to go over the streets where the sewers have been built.

Ask Your Friends About it.

Your distressing cough can be cured. We know it because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Large bottle 50c and $1 at all druggists. Sample bottle free. 1

A New Form.

La grippe, having reaped such a harvest last winter, is starting out with renewed vigor this year. Its headquarters at present are Vienna, where the genial sneeze—varying in tone from the penny whistle to the trombone's martial note—may be heard piping its shrill ditty or fulminating young thunderbolts. According to the last dispatches, the insinuating epidemic has taken on a new complexion. Last year it attacked the throat, while its present efforts are concentrated upon the intestines. The death rate is not so great under the new arrangement, but just at this season of the year, when climatic changes occur about every hour, it would be well for all who value their lives to fortify themselves with the conditions that prevent sudden chills.

He Will Succeed.

W. W. Foster has bought the large grocery and bakery of J. Lytle & Co., and took possession yesterday. Mr. Lytle and Ben Howenstine will remain in the store a short time to assist the new proprietor till he shall have his force organized and gets a good firm hold on the business. Mr. Foster is an old grocery man. He has had several years experience in the business and understands it thoroughly. He has energy, tact and good judgment, and will undoubtedly keep the trade the house already has, but will add to it largely. He has a faculty of making friends, and of holding them, and that, with his already-wide circle of acquaintances will insure success.

A Sorghum Crop.

David Greer and his sons, Herbert and Lincoln, who live 1½ miles south of Gibson, have just finished making up their crop of sorghum cane into molasses. They raised 40 acres of cane this year and made 12,000 gallons of syrup. It took them just 24 days to crush the cane and evaporate the juice into syrup. About 6,000 gallons of it were sold in Bloomington, 1,000 in Gibson, and the remaining 5,000 in various cities and villages in Central Illinois. It brought an average price of 48c per gallon or $5,760 for the product of 40 acres. This is $144 per acre, and Messrs. Greer expect to double their acreage next season.

City Directory for 1891.

Ebel, Bower & Co. have commenced active work on the Decatur City Directory for 1891. It will be the most complete work ever issued. Handsomely illustrated. Handsomely bound and indexed. Four complete directories in one, and each worth the subscription price alone. Advertisers will find this issue especially valuable, for, besides our large city circulation, a copy will be placed in every hotel within 60 miles of Decatur. Our list, 1883, 1885, 1887, 1889, 1891.

Farmers at Work.

The recent rains have been of wonderful benefit to the farmers. They have been enabled to plow and are now nearly through with the greater part of their fall work. A large acreage of wheat has been sown and an unusual amount of fall plowing has been done. Most farmers have commenced husking their corn and an occasional one with a small crop has finished. Corn is turning out better than was expected and much of it is averaging 40 bushelf to the acre and all it is unusually sound.

Chased His Wife.

Henry Etheredge, who lives on Mason street, was "under the influence of spirits" yesterday and amused himself by driving his wife away from home. She went over to a neighbors, and after awhile he followed her. Then he chased her around for some time. About 6 she sent for a policeman. The messenger met officer Barrett, who went for Etheredge and locked him up. He will be tried for disorderly conduct.

Colored Republicans.

The Colored Republicans' club met in their hall on Merchant street, last night, and listened to a speech of three-quarters of an hour, from Col. H. W. Rowell, of Washington, D. C. Rev. J. S. Woods also addressed the club briefly. They transacted no business of public importance. The next meeting will be one week from last night, when some plan for a rally is to be discussed.

The F. M. B. A.

The sessions of the Illinois F. M. B. A. continued yesterday at Springfield. During the day all the officers were re-elected, with the exception of the vice-president. Clothing dealers say that already they have sold more overcoats than they sold all last season. The reason, they think, is that last winter was so warm many people wore their old coats, or got through without any. Consequently, having got through last winter, those people feel that now they are entitled to a coat, and so get it at once.

The Decatur Masons have received a telegram from the Masons of Denver, Colo., saying that M. G. Patterson who disappeared from Bloomington last year, was there destitute and sick. ANOTHER AFRICAN EXPLORER.

He Wandered to Busy Madison Square in Quest of the Festive Elephant.

He was squarely built, was dressed in sober black, had a luxuriant dark beard and his hair fell like a curtain over the collar of his coat.

His hands rested on a stout stick as he sat on a bench in Madison square near the spot where George Francis Train used to energize his "Psycho," and one could not help noting in the stranger's eyes the faraway, introspective look that characterizes the brooding Buddha or the philosopher who dreams while awake.

As I was trying to conjecture who or what he might be a stranger stepped briskly up behind me and said:

"Sit near him and keep him in conversation for about five minutes until I come back. He will tell you some great stories about the Dark Continent."

Then he walked off at a rapid pace.

Astonished though I was curiosity compelled me to take a seat on the same bench with the long haired man who was gazing into vacancy, and I ventured to remark that it was a pleasant day.

Lifting himself out of the fog of his reflections my neighbor replied:

"Delightful weather, indeed, but big game is scarce. I have seen the spoor of thirty elephants in a spot no bigger than this, and got a dozen mighty tusks after trekking for only two hours. The barbers spoil everything. I would rather trust myself to the hotpotters—you have read about them in 'She,' I presume—than allow a barber to run his lawn mower over my head and currycomb me like a brickyard mule.

"You have doubtless noticed," continued my eccentric companion, "that a barbers' trust is now being organized. Did you ever hear of such an atrocious outrage? If you don't patronize them they will boycott and blacklist you throughout every city in the United States. Next they will force congress to pass a law that every man must wear his hair no longer than an inch and must pay for two shaves weekly whether he retains his beard or not."

Satisfied that my humorous though solemn looking friend was quietly guying me I said: "Excuse me, but I infer from your words that you have traveled extensively in Africa. Were you with Stanley, or may I be bold enough to ask your name?"

"Oh, I don't invite notoriety," said he, "but I have no reason to conceal my identity. I am Allan Quatermain!"

Before I could regain my breath the stranger who had previously addressed me returned in company with another man.

"Come now, Mr. Quatermain," said Number Two, "it is time to get back to camp."

The great hunter arose and went quietly along.

"Who is he?" I gasped to Number One.

"A patient who is being treated in a private home for insane persons," was the answer. "Quite harmless and will probably recover. His chief hallucination at present is that he is a great African hunter and explorer. He got away from us this morning and we expected to find him in the menagerie at Central park, but somehow he wandered down here instead. That gentleman walking with him now is a doctor."—New York Herald.

Pigmy Camels.

The western part of Persia is inhabited by a species of camel which is the pigmy of its species. They are snow white, and are on that account almost worshiped by the people. In return for the kind treatment accorded the shah while in Berlin he has presented the municipality with two of these little wonders. The largest is 27 inches high and weighs 61 pounds. The other is 4 inches less, but the weight is not given.—Once a Week.
